Drugs and Alcohol Policy

DAAP101 - July 2020

Capitol are committed to providing a safe, healthy, and productive working environment for all employees, contractors, customers and visitors involved in its operation. This policy sets out our aims in reducing and managing alcohol and drug problems in the workplace.

Alcohol and drug problems are associated with a wide variety of costs for employers and employees. These costs include ill-health sickness absence, reduced work performance, and accidents.

Consumption of drugs and alcohol (including prescription and over the counter drugs) or intoxication during working hours implicates the health and safety of the individual and others, since these substances impair coordination, judgement, and decision making. Irresponsible behaviour resulting from the misuse of drugs and/or alcohol may damage our reputation and/or business, and as such, is a policy matter.

Policy Objectives

- To state our position on alcohol and drugs within the workplace.
- To ensure we comply with appropriate legislation.
- To minimise the creation of risks caused by or associated with alcohol and drugs at work.
- To have clear rules regarding substance misuse in the workplace.
- To provide employees with training on the adverse health effects of alcohol and drugs.
- To encourage the early identification of substance misuse
- To support employees experiencing alcohol and drug problems.
- To provide sufficient training and support to line managers to make sure they feel able to support employees experiencing problems.

Definitions

Alcohol abuse – we define alcohol abuse as any drinking, either intermittent or continual, which interferes with health and/or social functioning and/or work capability or conduct.

Drug – we define drugs as illegal, prescribed and over the counter medicines and solvents. In the case of prescribed and over the counter drugs, we recognise that their possession and use by the employee is legitimate.

Drug abuse – we define drug abuse as the use of illegal drugs, the deliberate misuse of prescribed or over the counter drugs, and the use of solvents, either intermittent or continuous, which interfere with health and/or social functioning and/or work capability or conduct.

Legal

Under the Health and Safety at Work Act 1974, we recognise the duty to protect the health, safety, and welfare of employees and others who are (or may be) affected by their activities, as far as is reasonably practicable, and we are committed to taking measures to ensuring this safety.

Under the Management of Health and Safety at Work Regulations 1999, we will carry out a risk assessment to identify workplace hazards and put measures in place to minimise these risks.

Under the Misuse of Drugs Act (1971), it is illegal for anyone, to produce, supply or be in possession of illegal drugs.

Employers may be liable if they knowingly allow an employee, customer, or service user to dispense, manufacture, possess, use or sell drugs on their premises.

Policy Rules

We require all employees to come to work free from the effects of alcohol and drugs. Working under the influence of alcohol or drugs, or consuming alcohol or drugs during hours of work, including paid and unpaid breaks, is unacceptable behaviour.

Employees found in possession of illegal drugs or using illegal drugs while at work will be instantly dismissed and may be reported to the police. If the legitimate use of prescribed drugs is likely to affect job performance and safety, employees should inform their line manager immediately.

Education

We can provide employees with information on safe and sensible drinking if requested and the risks associated with drug use. We will disseminate this information via written materials and email communication. Support for our staff and management team can be accessed from Human Resources.

New managers will be made aware of their responsibilities in relation to this policy via the company induction programme. New staff will be made aware of this policy which can be accessed via our online staff portal.

Identifying a problem

Substance misuse may become apparent through a number of signs. The following list of signals (particularly in combination) could indicate an issue. This list is not exhaustive.

- Persistent short-term absence.
- Frequent unauthorised absence.
- Recurrent small accidents.
- Poor time keeping.
- Inconsistency in work performance.
- A breakdown in working relations.
- Paranoia/aggression.
- Deterioration in physical appearances, such as dental problems/weight loss.

Substance misuse may become apparent through a number of signs. The following list of s These factors can have a number of other causes, and we encourage managerial staff to use all the information at their disposal and intellectual discretion to identify a potential problem.

Colleagues may be the first to notice when an employee is misusing substances. If a member of staff suspects an alcohol or drug problem in a colleague they should either:

- Encourage the person to seek help from support agencies.
- Report the matter to a manager (particularly if the person is involved in a safety critical

Misconduct

Our policy is principally concerned with ongoing issues of substance misuse. We class these as ‘capability issues’ as the problem will primarily impact how the individual performs their job.

In circumstances where an employee breaches the policy on an individual case, such as reporting for work drunk or being under the influence of drugs at work, we will class this behaviour as a conduct issue and handle it via the normal disciplinary procedures.

If an employee, for example, is violent at work while under the influence of any substance or deals illicit substances at work or any other very serious incident, we will consider this serious misconduct and are justified in summary dismissal.

If an employee admits to having a substance misuse problem, the disciplinary process may be held in abeyance. This will be subject to the successful outcome of treatment and improvement of performance/job capability. If the employee subsequently admits to a substance misuse problem following an instance of serious misconduct, we may carry out the support route and the disciplinary route in tandem.
